

# Thank you for buying Assetly Financial Manager.

Assetly Financial Manager is desktop finance software for Windows desktops and Mac OS.

## Choose your desktop version

Your app download is hosted securely through Assetly. Start here, choose Windows or macOS, then continue to Stripe checkout:

<https://assetlymanager.online/#download>

## How your Etsy purchase is delivered

1. We generate a private Stripe promo code for your Etsy order.
2. Your promo code will be delivered within the next 24 hours, and usually within 1 hour.
3. When you receive the code, go to <https://assetlymanager.online/#download>, choose Windows or macOS, enter your promo code at Stripe checkout, and complete checkout for \$0.
4. After checkout is complete, Assetly will open the secure download page for the desktop app.
5. After Assetly opens successfully, you can delete the downloaded ZIP or EXE installer from your Downloads folder to save space. Deleting that installer file will not uninstall Assetly.

## Need the download again later?

After checkout, you can recover your download here:

<https://assetlymanager.online/checkout/recover>

Use the same email you used at Stripe checkout. If your email does not work yet, email [support@assetlymanager.online](mailto:support@assetlymanager.online) with your Etsy order number and we will send your private download link.
